

Mehari Ghebreyesus Nguse

I am a motivated professional with a solid background in material science, complemented by strong computer knowledge. My educational journey and hands-on experiences have equipped me with a comprehensive understanding of materials and their applications in various industries. I am eager to leverage my technical skills in data analysis, software proficiency, and problem-solving to contribute to innovative projects. Additionally, I am passionate about community involvement and seek opportunities to engage with others in the field.
