Tadesse Gebremicheal Berhe

A highly motivated full-stack developer skilled in building web applications with Vue.js and Laravel and mobile apps using Flutter and Android Studio. I have a strong ability to quickly adapt to new programming languages and technologies. My expertise includes **developing AI-based projects**, **digital marketing solutions**, and creating **ICT systems that integrate seamlessly with banking and other organizational systems**. With additional strengths in **teamwork, customer service, and time management**, I am passionate about using technology to deliver innovative and impactful solutions.
